

PPS PL+S Software

EDUCATION

PPS Plus Software offers online and on-site education for nurses, coders and other home health professionals. With PPS Plus, you can always expect quality education, affordable tuition, excellent instructors and the most up-to-date topics related to home care such as:

- V Codes
- Wounds
- OASIS Items
- Chronic Diseases
- Diabetes and Diabetic Manifestations
- Sequencing
- ICD-9 Coding Updates
- Orthopedic Disorders
- HH-CAHPS
- And More!

Webinars

First-rate home health education is never more than a click away! Whether you want to become more proficient in ICD-9 coding or the OASIS, we can help you do it. Agencies with an active Home Health Edition account or subscription to our ICD-9 coding and OASIS review services receive a customer discount.

Conferences

We offer half day, full day, and two-day ICD-9 coding and OASIS workshops throughout the country if live and in-person events are more your speed. Agencies with an active Home Health Edition account or subscription to our ICD-9 coding and OASIS review services receive a customer discount.

Private On-Site Workshops

Work with our clinical and coding experts to create a customized agenda and individually focused tips suited specifically for the learning needs of your staff. Decide on a convenient day for your staff and our expert will travel to your agency to present a full-day in-service. Agencies with an active Home Health Edition account or subscription to our ICD-9 coding and OASIS review services receive a customer discount.
